TECHNICAL PROJECTS

OOP-Movie Project (<https://oop-movie-project-js.netlify.app/>)

This project is inspired by IMDb website where you can search movies and actors

- + HTML, CSS, Bootstrap, Javascript with OOP
- + I built search movies and actors, actor details, genres, movie details, similar movies.

Board Project (<https://lovelysongs.netlify.app/>)

This project is inspired by Trello where you can create your own music board and lists, edit and delete them

- + HTML, CSS, Reactstrap, React js and Firebase (for database)
- + I built sorting items, deleting items, editing items, board / list view functionality.

Furry Friends / Capstone Project (<https://capstone-turkey-animal-adoption.netlify.app/>)

This project is a pet adoption website where users can search pets in need of help and adopt them.

- + HTML, CSS, Reactstrap, React.js, Firebase, ReactRouter, Formik, i18n, Email.js, Netlify, Wordpress Api, Jest, Figma
- + I built contact us functionality with Google Maps, search functionality and profile page functionality.

WORK EXPERIENCE

Frontend Developer, NicEye Group, Istanbul, Turkey

04. 2021 — Present

- + I create webinar and stream pages using HTML, CSS and JQuery
- + I built websites "drozanaslan.com" and "noroimmun.net".
- + I pay attention to the details and to the responsiveness. I stick to the design while coding.

Dispute Executive &

Customer Support Specialist, Metglobal, Istanbul, Turkey

10. 2015 — 04. 2021

- + Accomplished account discrepancies and collected payments for unpaid bookings due to problematic issues by negotiating with agencies.
- + I decreased the dispute amount as of 40% (yearly)
- + Accomplished to give the correct advice to the customer, and understood their needs and turned objections into sales opportunities
- + Resolved product/service problems
- + I worked in a disciplined and negotiative way during my position.
- + Maintained a friendly manner and calm, positive demeanour when handling complaints
